

WATER PRESSURE SYSTEMS and WASH DOWN PUMPS

Albin Pump Marine introduces the WPS 300- and 500-series of Water Pressure System pumps for providing pressurized water on demand! Our WPS pumps supply continuous, pulsation-free, pressurized flow of both hot and cold water to faucets, shower heads and more. Choose between the 3- and 5-chamber diaphragm pumps, depending on required flow rates and number of faucets to be served.

The 300- and 500-series pumps are also available in a Wash Down pump configuration (WD) with pressures up to 70 psi (5 bar). Connected to a spray nozzle, the efficiency of the pump with the higher pressure will make short work of wash down duties.

- Easy to install
- Extra heavy duty sealed pressure switch
- Smooth & Pulsation-free flow
- Quiet operation
- Quick disconnect ports
- Connection with ½" or ¾" hose with NPT thread

Albin Pump Marine 300-series 3-chamber diaphragm pumps Water Pressure Pumps

Part no.	Outlets	Description	Capacity	Fuze size	Cut off pressure
02-01-003	1 to 3	WPS 2.6 12V	2.6 GPM	10 A	40 psi (2.8 bar)
02-01-004	1 to 3	WPS 3.5 12V	3.5 GPM	10 A	40 psi (2.8 bar)
02-01-005	1 to 3	WPS 3.5 24V	3.5 GPM	5 A	40 psi (2.8 bar)

Wash Down Pumps

02-04-014	-	WD 3.4 12V	3.4 GPM	15 A	70 psi (5 bar)
