

Barton Stainless Steel Quick Cleat #60040

Quick Cleat 60040 – No Knots!

Engineered in 316 stainless steel offering heavy duty performance on power boats, RIBs, sailing yachts, tenders and work boats. An easy, quick and simple solution for rapid tying of ropes horizontally or vertically.

Quick Cleat's low profile reduces snags and completely contains the line to prevent accidental release. Adjustment can be made in one direction and fully locks in the other until released by turning the centre lever. Two M5 fixings (not supplied) secure the fitting to the deck.

Use for painters, anchors, fenders, covers, tie downs, fishing gear, dock lines, testing equipment.

Working load: 1188lbs (540kgs)
Line diameter: 5/16" (10mm) line
Fixing holes: 3/16"
Base diameter: 3" (76mm)
Height: 1" (24mm)
Weight: 9.9oz (280 grms)

Easy, Quick, Simple
