

LOWRANCE® Outboard Pilot

Our all-new autopilot pack—featuring **Lowrance SmartSteer™** control from your **HDS Gen2** or **HDS Gen2 Touch**—will steer to a heading, waypoint or route

- ◆ Steer your outboard motor to a heading, waypoint, route or cursor, with control from your **HDS Gen2** or **Gen2 Touch** display.
- ◆ New **Lowrance SmartSteer™** interface provides control of either your cable-steer or hydraulic outboard motor, as well as the MotorGuide Xi5 Pinpoint electric-steer trolling motor.
- ◆ “One-touch” route creation from trails.
- ◆ Pre-set turn patterns for more effective fishing/trolling presentations.
- ◆ Recommended for single-outboard setups, on boats that are 30 feet and less, in length.
- ◆ VRF (Virtual Rudder Feedback)—simplifies pilot installation—eliminating the need for a rudder position sensor.
- ◆ Easy setup—straightforward guide steps you through first-time install.
- ◆ Easy-to-install, plug-and-socket connection—with no complex terminal wiring.
- ◆ Supported by **Lowrance Advantage Service** program

Everything you need

in one box to fit an autopilot to your outboard motor, the **Outboard Pilot** lets you focus on fishing activity while keeping the boat on course. Choose either the hydraulic- or cable-steer pack.

When connected to a **Lowrance HDS Gen2** or **Gen2 Touch**, the **Outboard Pilot** can steer to a waypoint or along a route, select a turn pattern or simply hold a constant heading.

The **Lowrance SmartSteer™** user interface allows you to easily switch between electric-steer, trolling-motor control and outboard motor control directly from your **HDS** display. And, with your **HDS** display, you can easily convert trails to routes – so you can retrace a previous track and get your boat back to the dock from your fishing area.
