

COB G4, 360 DEGREE, DIMMABLE 200+ LUMENS, Soft Warm Light New Robust Circuitry can take the Abuse

LLB-21Kx-71-10

The newest generation Lunasea LED G4 Light produces light with a 360 degree spread instead of being the traditional directional beam. At over 200 Lumen output this light replaces a 25-30W Halogen. Soft 2700K Warm White or Cooler 4000K white, this bulb will meet the requirement. Designed to be dimmable, there will be no flicker like older style LED's. Encapsulated to protect from the elements.

SPECIFICATIONS

LLB-21KC-71-00 (Cool White)

Voltage: 10-30VDC
Power: 1.5W (125mA at 12VDC)
Output: 210 Lumen, >80 CRI
Dimensions: 36mm x 10mm

LLB-21KW-71-00 (Warm White)

Voltage: 10-30VDC
Power: 1.5W (125mA at 12VDC)
Output: 200 Lumen, >80 CRI
Dimensions: 36mm x 10mm
