Discover D3 Light Isolating Mounting Kit - Assembly

This document details the installation of the Isolating Mounting Kit for the OceanLED Discover D3 light. Please read these instructions and the Discover D3 Installation Manual before proceeding with the installation.

Discover D3 Isolating Kit assembly overview:

M3.5
Nylon Nut

Nylon
Washer

Metal surface on
boat/outboard jet bracket

D3 Light

M3.5 X 35mm nylon bolts

1. Follow chapter 3 of the Discover D3 Installation Manual. For full installation guide go to: www.oceanled.com/downloads.

2. Drill the 3 screw holes positions to 4mm through the metal surface/ outboard jet bracket.

3. Follow chapter 4.1 of the Discover D3 Installation Manual, using the provided 3x M3.5 x 35mm nylon bolts with nylon washers and nylon nuts instead of the 3x standard D3 metal screws. **Apply sealant as per instruction manual, and also to the nylon bolts / fixing holes to ensure these are fully sealed.**

4. From inside/ inner side of outboard jet bracket, fit in order the nylon washer and the M3.5 nylon nut onto the 3x M3.5 bolts, fixing the light in place. Never use power tools to secure your lights; hand tighten only.

5. Follow chapters 4.2 – 4.4 of the Discover D3 Installation Manual to conclude the light's installation.

X-Series Light Isolating Mounting Kit - Assembly

This document details the installation of the Isolating Mounting Kit for the OceanLED X-Series (X4, X8, X16) lights. Please read these instructions and the X-Series Installation Manual before proceeding with the installation.

X-Series Isolating Kit assembly overview:
(Shown with X8 - same mounting kit can also be used with X4 and X16)

M3.5
Nylon Nut

Nylon
Washer

X8 Light

Metal surface on
boat/outboard jet bracket

M3.5 X 35mm nylon bolts

1. Follow chapter 2.1 of the X-Series Installation Manual. For full installation guide go to: www.oceanled.com/downloads.

2. Drill the 4 screw holes positions to 4mm through the metal surface/ outboard jet bracket.

3. Follow chapter 2.2 of the X-Series Installation Manual, using the provided 4x M3.5 x 35mm nylon bolts with nylon washers and nylon nuts instead of the 4x standard X-Series metal screws. **Apply sealant as per instruction manual, and also to the nylon bolts / fixing holes to ensure these are fully sealed.**

4. From inside/ inner side of outboard jet bracket, fit in order the nylon washer and the M3.5 nylon nut onto the 4x M3.5 bolts, fixing the light in place. Never use power tools to secure your lights; hand tighten only.

5. Follow chapters 2.3 and 2.4 of the X-Series Installation Manual to conclude the light's installation.
