

Hi-Speed Inflator/Deflator

12V PORTABLE PUMP WITH MULTIPLE VALVE OPTIONS

The iD20 Hi-Speed Inflator provides reliability and flexibility, allowing for rapid inflation and deflation of almost all inflatables. Simple to operate and with a powerful 300W motor, this lightweight and portable air pump will ensure you waste no time getting your inflatable ready for use.

FEATURES

- Inflates a four man dinghy in less than two minutes
- Deflates, removing every last ounce of air for easy storage
- Adjustable nozzles for almost all inflatables and valve types
- High flow and pressure pump design - 20 ft/min (550 l/min) @ 2.6 psi
- 12 Volts (Max current draw: 25 amps)
- 10 ft. cable length with battery clips
- Air release valve protects from over inflating and overheating

SPECIFICATIONS

Rule No.	Description	UPC
iD20	Inflator/Deflator, 12 Volts	042237-109941
iD20K	Adaptor Kit	042237-109958

Model iD20

VALVE ASSEMBLES

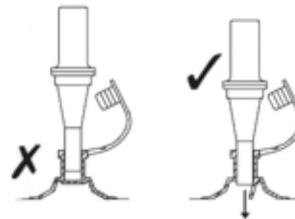

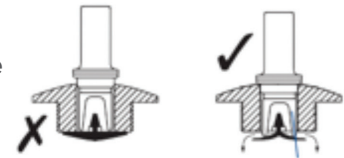

Typical valve assemblies showing the correct use of the adaptor.

With many valve options, you will be able to inflate/deflate almost any inflatable product with no effort and in no time at all.
