

Junction Box Range.

A waterproof connection for multiple electrical cables, suitable for areas such as lockers, Lazarette's and Tender Bays.

Choose from 2 easy install options:

SB-8-5

- 5 screw-down terminals, offering 5 terminations
- Additional SB-2G cable seals required for IP67 installation

SB-8-10

- 10 screw-down terminals, offering 10 terminations
- Additional SB-2G cable seals required for IP67 installation

- Our heavy-duty junction box manufactured from marine grade polypropylene.
- Depending on the number of terminations required the terminal blocks can be individually fitted or blocked to
- Other boxes leave the terminal blocks floating inside, where the risk of a loose connection can occur.
- Cables push fit into the terminals and are secured with a sprung leaf retention system that does not damage
- The terminal can be removed for easy fitting of cables
- Terminal securely clips into the base of the box.
- Supplied with self-tapping screws for installation.
- Supplied with an installation bracket that allows quick and easy fit and removal for inspection etc.
- Dimensions 85 x 85 x 50mm or 3.35 x 3.35 x 2 inches
