

New for 2023!

ROKK™ Charge Pro.

SC-USB-03

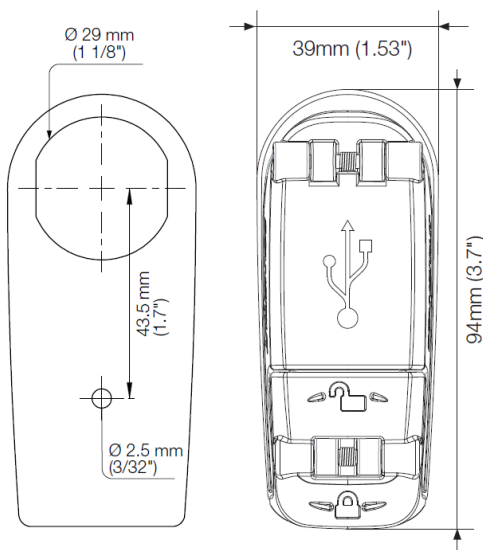

ROKK Charge Pro is the ultimate onboard USB Charger. Featuring a USB-A and USB-C charging port housed in an IPX6 waterproof design, this is the only USB-C charger on the market that remains waterproof while in use!

The unique design charges upto 36W on 12V systems and 60W on 24V systems. This makes it ideal for charging modern laptops via the USB-C port. It's also twice as fast when charging larger tablets, designed to easily charge an iPad Pro and iPhone at the same time.

- 12/24V.
- IPX6 waterproof.
- 100% Waterproof with 1, 2 or even 0 cables plugged in.
- UV resistant shell and 316 stainless hinge and spring.
- Works with USB Type-A connectors and Type C.
- Easy installation.

Perfect for where space is at a premium, ROKK Charge Pro has a sleek, ultra-compact design with a click-and-lock lid allowing the USB to remain waterproof while in use. Constructed from premium, marine-grade materials, ROKK Charge Pro is IPX6 waterproof making it completely wash-down ready.

Technical information.

Input voltage 12/24V System	10-32V DC
Input current Max	6 A
Output Type C (12V System)	5V-3A, 9V-3A, 12V-3A MAX
Output Type C (24V System)	5V-3A, 9V-3A, 12V-3A, 15V-3A, 20V-3A MAX
Output Type A MAX	5V-1.5A, 9V-1.5A, 12V-1.5A/3A MAX
Standby draw	0.01W
Waterproof rating	IPX6
Certification	CE, FCC, C-Tick, ROHS, UKCA

The install cut-out matches those of standard USB sockets for easy retrofit or swap of an existing USB charger, allowing you to keep up with the heavier power draws of modern electronic devices.
