

Introducing

Flip Pro.

USB Charging for the next generation boater.

12 & 24V Type A / C Dual USB Charger

SC-USB-F1

Our latest USB is 12V & 24V input and features 1x Type A and 1x Type C ports giving you the choice for the optimum connection and power for your device.

Featuring an ultra-compact footprint, with the cap that springs closed, protecting ports when not in use and that locks open when you're charging, to protect your cables.

Completely washdown proof, with an IP rating of IPX4, Flip Pro is 2x faster for charging large tablets and charge iPad Pro & iPhone at the same time. Perfect for charging modern laptops providing up to 60W power on a 24V system.

Constructed from marine-grade materials, Flip Pro has been designed to easily retrofit or swap out your existing USB charger, allowing you to keep up with the heavier power draws of modern electronic devices.

Key Information

To maximize charge performance, use the cable supplied with your tablet, phone etc. (C to C, or C-lightning)

Phones charge at the same speed on either a 12 or 24V system, but a 24V system must be used to get the full 60W output suitable for laptops.

IP rating: IPX4 waterproof when lid is closed

Input voltage 10-30V DC (12/24V System)

Input current Max: 6A (10A fuse recommended)

Standby power draw: 0.01W

USB – C output: 60W max on 24V system,
36W max on 12V system

USB – A output: 36W max

Mounting Hole: 29mm (1 1/8") mounting hole
