140/141 Transducer Mounting Arms

140 Post Mount Transducer Mounting Arm

Scotty post mount Transducer Mounting Arm is designed for kayak and small boat use. Made from high strength composite material that will give you years of service, without corrosion problems. The arm telescopes from a compact 11.5" to 18" in length. Fully adjustable design allows for any angle. Includes Scotty 241L Locking Side / Deck mount, Scotty 412 Post Mount and Scotty 415 Slip Disk for micro adjustments. (Transducer not included)

141 Track Mount Transducer Mounting Arm

Scotty track mount Transducer Mounting Arm is designed for kayak and small boat use. Made from high strength composite material that will give you years of service, without corrosion problems. The arm telescopes from a compact 11.5" to 18" in length. Fully adjustable design allows for any angle. Includes Scotty 438 Gear-Head Track Adapter, Scotty 415 Slip Disk for micro adjustments and Scotty 440-4 4" Low Profile Track. The 141 track adapter mount will allow you to install one of Scotty's fishfinder mounts or any Scotty post mount product. (Transducer not included)
