

KAYAK HATCH COVERS - VCP OVAL

Injection Molded Polymer

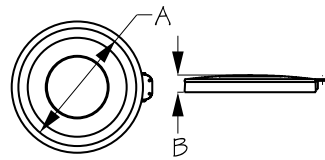

Bulk	Display	Description	A	B	C	Style	Wt.(lb.)	Std. Pack
n/a	745270-1	Lid Only	17-1/4"	2"	10"	Performance	1.30	1 ea

The VCP Oval Hatch Cover is a great as a replacement for lost or damaged lids. This performance hatch features our unique two-part construction for maximum protection. Designed to float when dropped in the water, the hatch lids are easy to attach while still offering a superior watertight seal. Proudly constructed in the USA using the highest-quality injection molded polymer.

Our VCP Oval hatch is compatible with the Valley Canoe Products® (VCP) oval hatch when mounted on an injection molded rim bolted/glued to the deck; not recommended for rotomolded kayaks that do not feature this rim (*Sea-Dog® is not affiliated with Valley Sea Kayaks® and/or Kayak Sport®, reference to these brands only indicates similar sizing of hatch cover products).

KAYAK ADJUSTABLE FOOTBRACE

Injection Molded Polypropylene/Fiberglass/Nylon

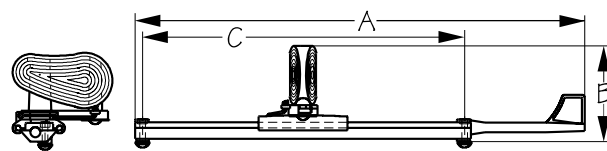

PATENTED

Bulk	Display	A	B	C	Flag	Rod Color	Wt.(lb.)	Std. Pack
n/a	747100B-1	20-1/4"	4-1/4"	14-1/2"	Standard	Black	1.40	5 pr

The Kayak Adjustable Footbrace has 10" of adjustable travel with only the flip of the lever. The two mounting holes (measuring 14-1/2" apart) fit most existing footbrace patterns. The entire unit is designed to be maintenance free and self-cleaning while offering superior strength. In addition, the ergonomically designed pedals are extremely comfortable... even with bare feet. Thru-hole mounting for easy user installation. Proudly constructed in the USA of injection molded polypropylene and glass filled nylon. Patent #7,168,388.
