TOOLS NEEDED
Sudbury Elastomeric Marine Sealant is recommended. To purchase call 800-655-7922 or visit www.seaviewglobal.com
Sudbury®

Elastomeric Marine Sealant
x4   x4
5/16" = 8mm

1½" = 38mm

5/16" = 9.5mm   x4

1

1 Place the Seaview mount onto the mounting surface and mark the four bolt holes for drilling.

*2* Using a 5⁄16" drill bit, drill out the four bolt holes.

3 Using a 1½" hole saw, drill a hole for the cables.
4 Insert the rubber o-ring into the groove in the Light Bar hole.
2

**5** If you are using an optional Seaview Light Bar, do not use the black pin.

6 If you are <u>NOT</u> using a Light Bar, use the white plastic plug instead. Insert the black pin in the first hole of the Light Bar insert.

7 Place the rubber gasket into the groove on the top of the Seaview mount.
8 Insert the radar cable grommet that comes with the Seaview Top Plate kit into the center hole of the top Plate. Please refer to the instructions that came with the Seaview Top Plate for more details.
**9** Secure the Seaview Top Plate to the mount using the eight bolts that come with the Seaview Top Plate.
**10** Route the cables through the mounting surface.

11 Place marine adhesive sealant on the bottom of the base. Be sure to get around the four bolt holes.
12 Route the cables through the Seaview mount and through the Top Plate.

13 Place the assembly on top of the mounting surface. Make sure that the four bolt holes lineup.
14 Apply marine adhesive sealant around the four nylon shoulder washers and bolt heads. Using your own bolts, bolt the mount to the mounting surface.
