Alerts

Option	Result
Acknowledge	Sets the alarm state to acknowledged, meaning that you are aware of the alarm condition. The siren/buzzer stops and the alarm dialog is removed. However, the alarm remains active in the alarm listing until the reason for the alarm has been removed.
Silence	Mutes the siren locally (for 30 seconds) for all units in the same network alarm group. The alert dialog remains on the display.

Quick menus

Manual modes

Automatic and navigation modes

	Automatic and manual source selection		Manual setting (Rudder, Counter Rudder, Rudder gain, Speed)
	List of active alerts		Access the Settings menu

Settings menus

The Settings menu can also be accessed from the Quick menu.
